

ArMoR

SAVE THE DATE!

16.02.2023, 9:30 – 16:30 hrs.

Wageningen International Conference Centre

7 EU research projects on reducing antimicrobial use in livestock:

**AVANT, AMRILLS, BM-FARM, DISARM, FARM-CARE,
HEALTHYLIVESTOCK, ROADMAP**

working together as ArMoR cluster

invite you to a joint event where science and industry will meet to speak about avenues toward the reduction of antimicrobial use in livestock.

Grab the opportunity to participate in this interactive programme where research and industry offer their latest insights and solutions for fighting AMR in daily animal husbandry practice!

The event is open for industries, researchers, veterinarians, farmers, and other interested parties. It can be attended in person or online, **free of charge!**

- **If you want to make a pitch or present a poster during our networking lunch, submit your idea here by Jan. 16th at the latest. Click [here](#)**
